

**DENVER RUBBER
COMPANY**

**STRETCH
YOUR
IMAGINATION!**

**ISO 9001:2015
CERTIFIED**

Our Manufacturing Services

- Manufacturing and distribution of cut rubber, foam and elastomeric products.
- Manufacturing and distribution of OEM hose, fittings and specialty cut products for the floor care industry.
- Manufacturing of foam related specialty cut and packaging parts.

ISO 9001:2015 Certified

DRC is ISO 9001:2015 certified. To attain this certification, DRC complies with strict, international quality standards to ensure customers consistently get high-quality products and services.

DENVER RUBBER COMPANY

CUSTOM CONTRACT MANUFACTURING

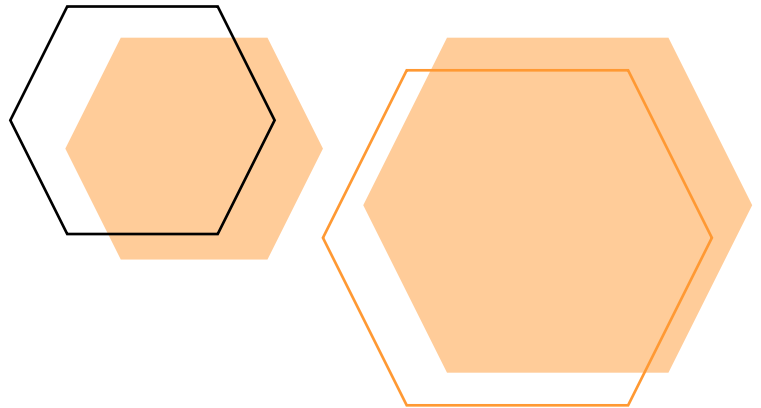

As one of the nation's leading industrial products and fabrication organizations, Denver Rubber Company is a unique custom gasket manufacturer. Operating since 1972, Denver Rubber Company is a family-owned, third-generation company, who builds upon our reputation of integrity and quality craftsmanship daily. In addition to the designing and fabrication of custom non-metallic parts for industrial and commercial applications, DRC is one of the nation's leading [manufacturers/distributors](#) of commercial OEM floor care aftermarket products.

THIRD GENERATION FAMILY RUN

UNCOMPROMISING QUALITY AND SERVICE YOU CAN COUNT ON

Way back in 1972, Tom Jones founded Denver Rubber Company (DRC) in an 800 square foot, oddly shaped little building, where he exclusively manufactured rubber hoses. DRC was built on the philosophy that every customer is a relationship to be treasured and every team member is family. Tom's son Al Jones took the helm in 2005 and today, Tom's granddaughter Kelly Golding carries on his legacy as the CEO of the family business. Fueled by Al's ten-plus years in the IT industry and his passion for technology, DRC has grown into a technology-driven, leading manufacturer of industrial rubber and gasket products. Kelly and Al, as CEO and CFO, continue to take a client-first approach in their day to day operations. "We are not just gasket makers. We believe in quality products and quality service. At DRC, every customer is a committed relationship – and that will never change." Kelly says.

OUR MISSION

Denver Rubber Company is dedicated to our customers' success by providing customized solutions and manufacturing value-added products whose performance and appearance are of the highest quality.

SERVING OEMs OVER 45 YEARS

The DRC team leverages their expertise, industry knowledge and cutting-edge technology to deliver OEM clients with exceptional custom industrial rubber and non-metallic parts, when they need them and in the amount they need. No job is too complex.

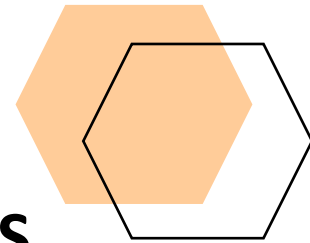

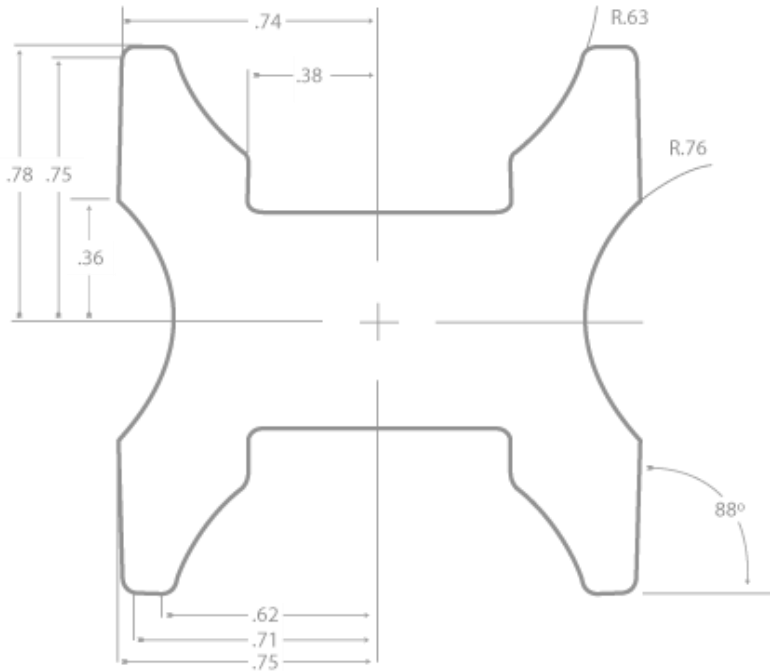

CUSTOM GASKETS & SEALS

CUSTOM DESIGN & FABRICATION

DRC has been fabricating custom gaskets for a long time now – and it shows. Our industry knowledge, expertise and commitment to excellence make us the best source for industrial sheet and gasket materials.

Our industrial gaskets division carries a wide variety of quality materials from paper to plastic, MIL-Spec rubber to commercial grade rubber, and compressed gasket sheeting to fibrous material.

Die-cut gaskets are one of our specialties, with every die being custom-designed to client specifications.

MATERIAL FOR CUSTOM GASKETS

NO JOB IS TOO COMPLEX

The DRC has the experience to assist with your gasket design, fabrication and inventory management needs. Our outstanding reputation for reliability has allowed us to maintain an extensive vendor list, giving us access to virtually any non-metallic material.

The DRC gasket division is located in our 17,000 square foot facility and is equipped to accommodate all types of needs, from high volume industrial size orders to smaller specialized jobs. The division is also capable of designing and manufacturing industrial gaskets to custom specifications using our innovative capabilities.

Committed to excellence, we strive to provide quality customer service. We value your deadlines and can assure you that your orders are shipped on time. DRC continues to implement the latest technology in the design and manufacturing of our custom gaskets.

THESE ARE SOME OF THE RUBBER & GASKET MATERIALS: [\(Learn More\)](#)

- Natural Rubber
- Neoprene
- Diaphragm Rubber
- Nickel Graphite
- Buna-N (Nitrile)
- Urethane
- Silicone
- Hypalon
- Skirt Rubber
- Smoke & Flame Rubber
- Mil-Spec Rubber
- Santoprene
- Pure Gum Rubber
- Butyl
- Red rubber
- EPDM
- Viton
- Corrugated matting
- Cloth inserted packing
- Snow plow blades
- PVC Belting

CUSTOM DESIGN

ENSURING THE BEST SOLUTION FOR YOUR APPLICATION

The development and design team at Denver Rubber Company is continuously researching new materials to evaluate and ensure that we supply the best solution for your application regarding extruded rubber, seals or gaskets. We offer continuous [design support](#), beginning with the conceptual drawing, continuing through the prototype phase, tooling acquisition and ending in full production for engineers and equipment designers. Our extensive inventory of raw materials assures a quick turn-around in most applications.

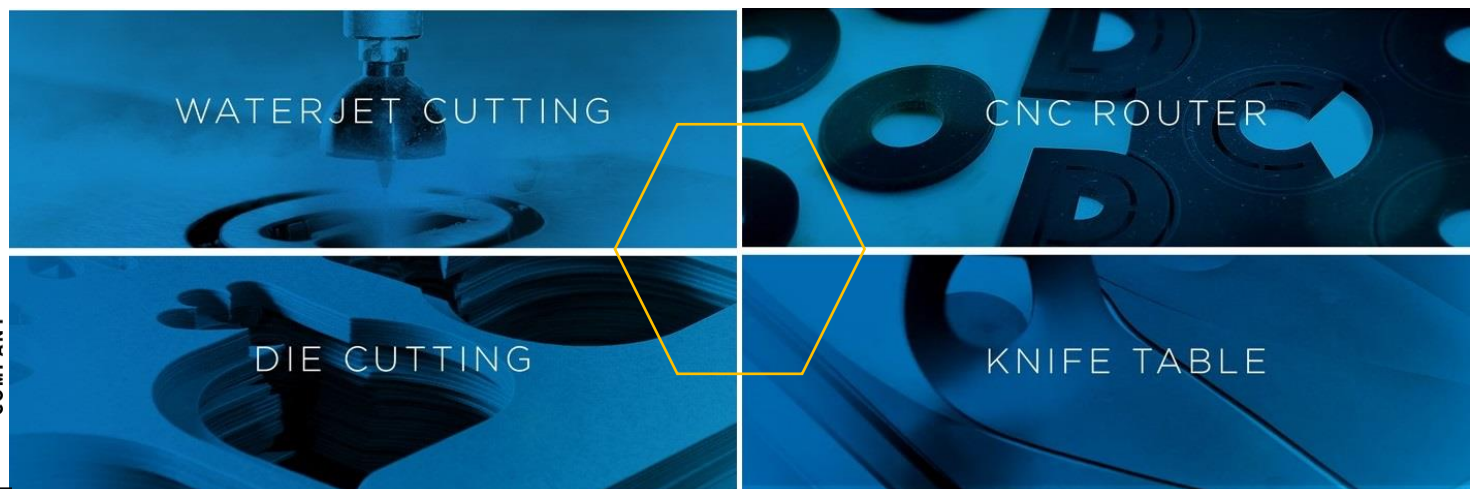

CAPABILITIES AND TECHNOLOGIES

Our top of the line machinery and highly skilled staff make us able to meet the dimensional tolerances for any project, getting as close as .015" and tighter on most applications.

DRC has gained the respect and loyalty of our customers through years of demonstrating knowledge, experience, dependability, and versatility.

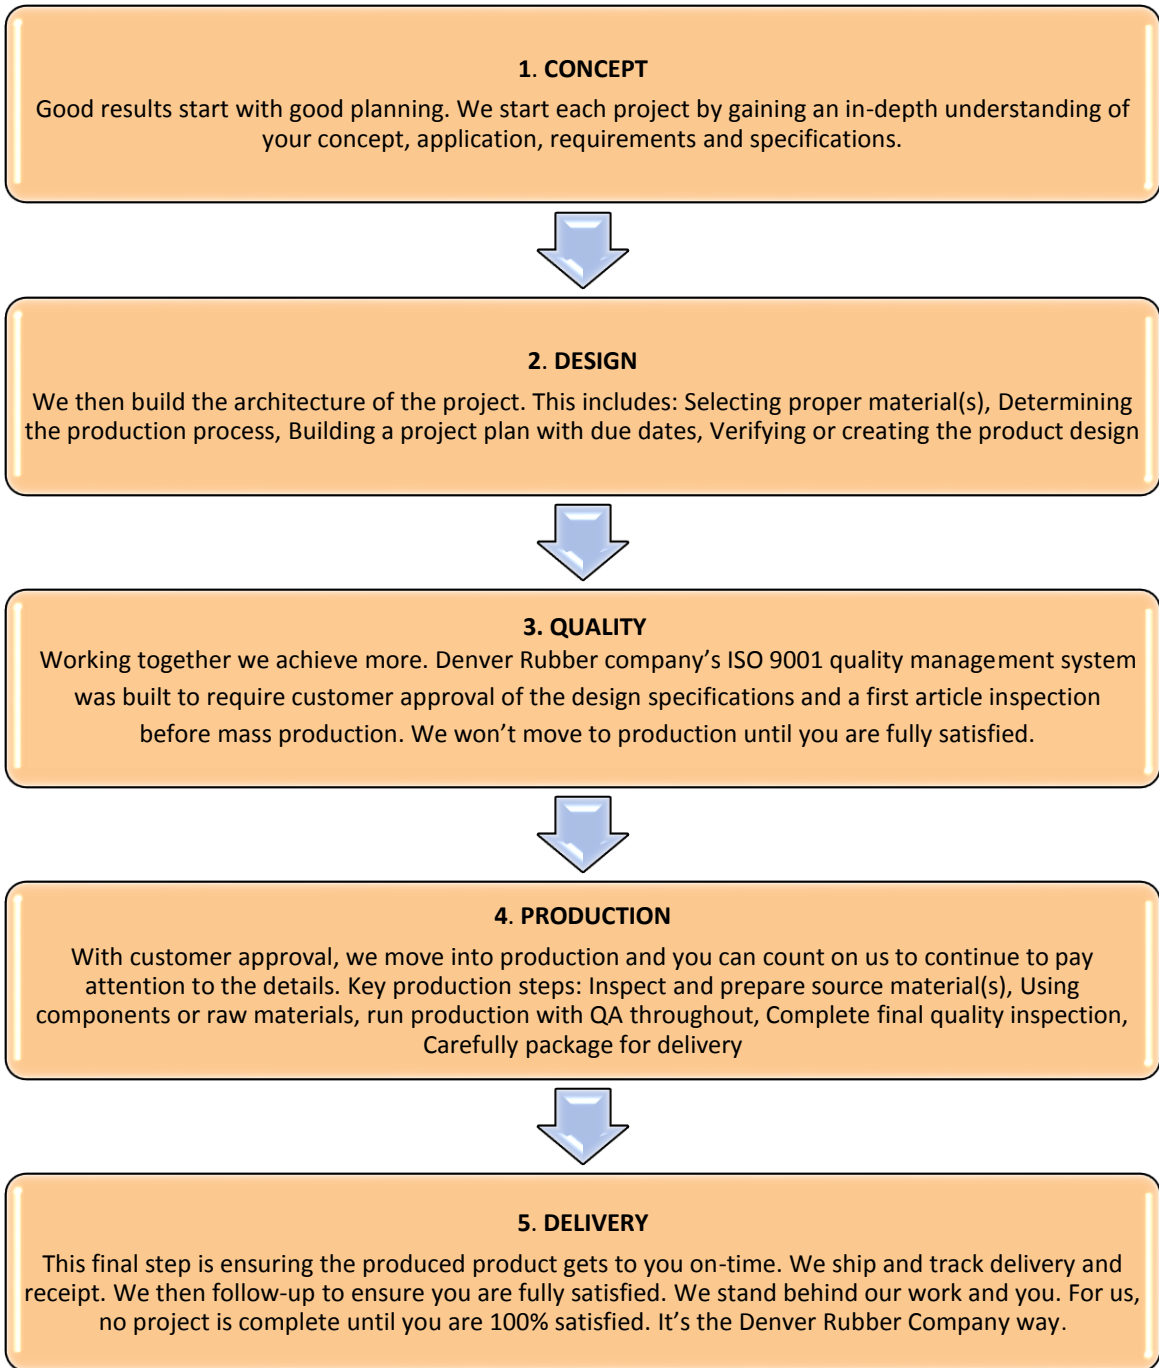

We specialize in custom products such as die-cut gaskets, molded rubber, custom fabricated parts, water-jet, and laser-cut parts.
