# **DENVER RUBBER COMPANY**

## **CUSTOM CONTRACT MANUFACTURING**

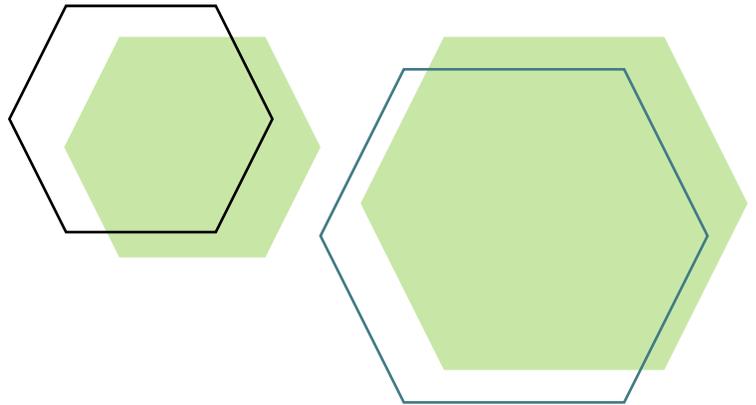

As one of the nation’s leading industrial products and fabrication organizations, Denver Rubber Company is a unique custom gasket manufacturer. Operating since 1972, Denver Rubber Company is a family-owned, third-generation company, who builds upon our reputation of integrity and quality craftsmanship daily. In addition to the designing and fabrication of custom non-metallic parts for industrial and commercial applications, DRC is one of the nation’s leading [manufacturers/distributors](#) of commercial OEM floor care aftermarket products.

# THIRD GENERATION FAMILY RUN

UNCOMPROMISING QUALITY AND SERVICE YOU CAN COUNT ON

Way back in 1972, Tom Jones founded Denver Rubber Company (DRC) in an 800 square foot, oddly shaped little building, where he exclusively manufactured rubber hoses. DRC was built on the philosophy that every customer is a relationship to be treasured and every team member is family. Tom's son Al Jones took the helm in 2005 and today, Tom's granddaughter Kelly Golding carries on his legacy as the CEO of the family business. Fueled by Al's ten-plus years in the IT industry and his passion for technology, DRC has grown into a technology-driven, leading manufacturer of industrial rubber and gasket products. Kelly and Al, as CEO and CFO, continue to take a client-first approach in their day to day operations. "We are not just gasket makers. We believe in quality products and quality service. At DRC, every customer is a committed relationship – and that will never change." Kelly says.

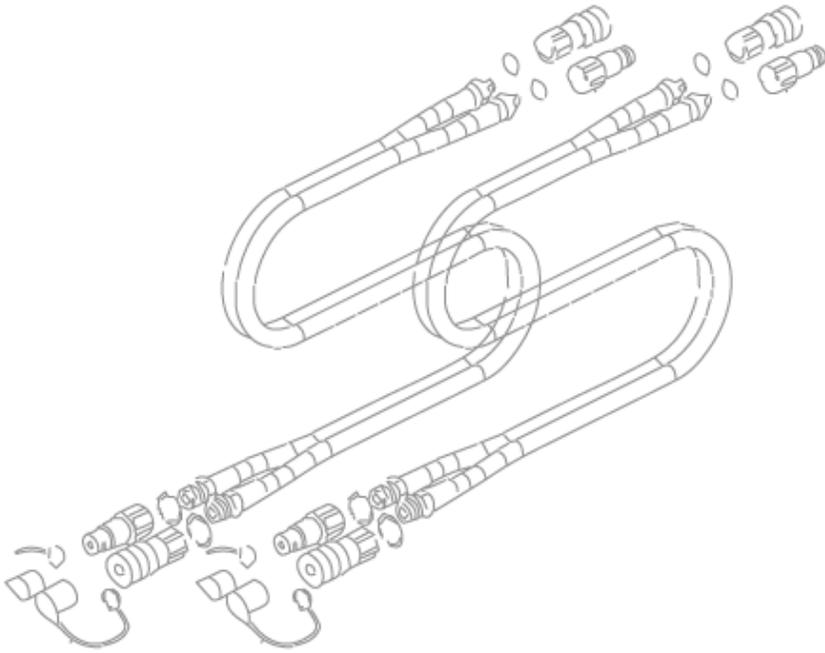

## OUR MISSION

Denver Rubber Company is dedicated to our customers' success by providing customized solutions and manufacturing value-added products whose performance and appearance are of the highest quality.

## SERVING OEMs OVER 45 YEARS

The DRC team leverages their expertise, industry knowledge and cutting-edge technology to deliver OEM clients with exceptional custom industrial rubber and non-metallic parts, when they need them and in the amount they need. No job is too complex.

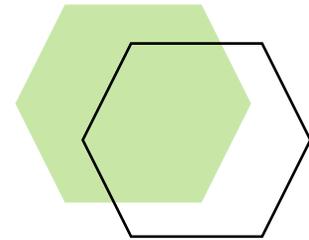

# CUSTOM HOSE ASSEMBLIES

## CUSTOM INDUSTRIAL HOSE FOR OEMs

Denver Rubber Company sets the standard in industrial custom hose and hose assembly manufacturing.

We have serviced OEMs since 1972 and are one of the nation's leading hose manufacturers and distributors in mass-produced hose assemblies. Realizing the importance of mass-producing hose assemblies to exacting standards, DRC incorporates the highest level of design, quality control, and testing.

---

## WE SET THE STANDARD

YOU GET EXACTLY WHAT YOU ORDER AND YOU GET IT WHEN YOU WANT IT.

The utmost care and knowledge is applied to ensure that each hose assembly we make conforms to exacting standards. We utilized the most precise equipment in the measurement, fabrication & testing of this product line. DRC is deadline-driven and works closely with our customers to ensure our products are manufactured to your specifications.

Striving to build upon our reputation, the goal of our DRC team is to provide you, the customer, with an excellent experience through responsive customer service. We actively strive to comply with environmental safety precautions and practices and are ISO 9001:2015 certified. Contact the Denver Rubber Company today. We are readily available to answer any questions you may have concerning our services.

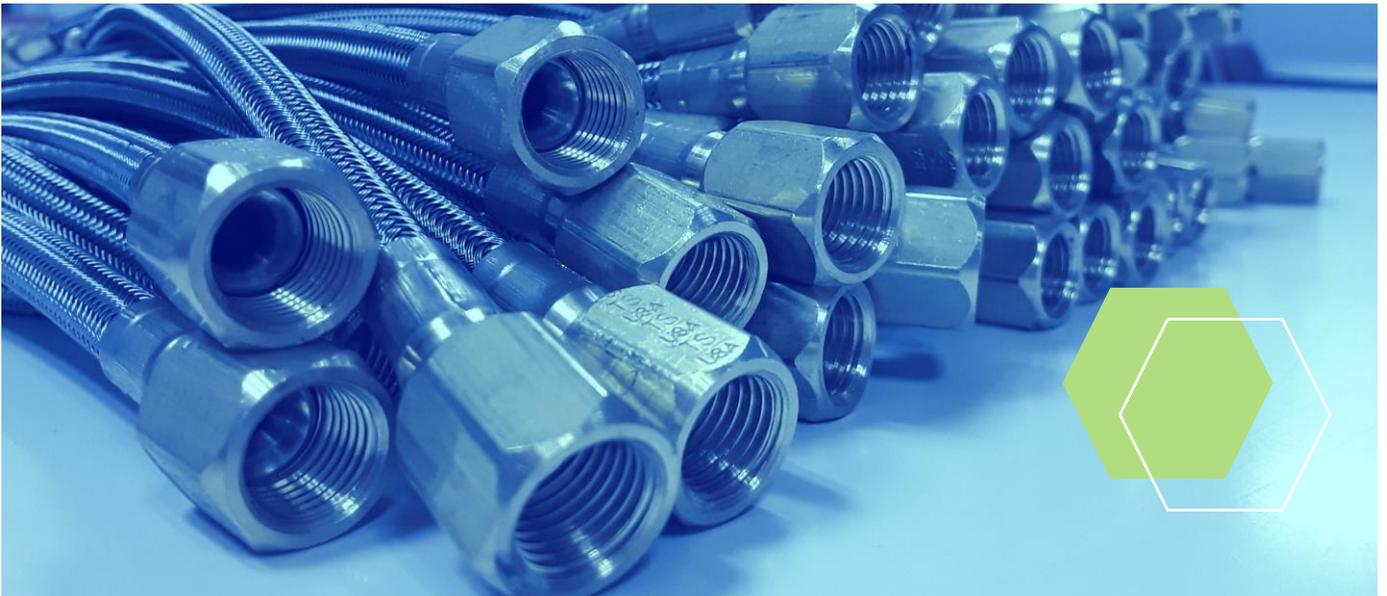

# CUSTOM HOSE & FITTINGS

## HOSES, FITTINGS AND TECHNOLOGIES WE USE

Denver rubber company offers a wide range of hoses and fittings for a custom project. Some of the hoses we provide are low-pressure air hose, high-pressure air hose, vacuum hose, fuel hose, hydraulic hose, discharge hose, food grade hose, and lay flat hose.

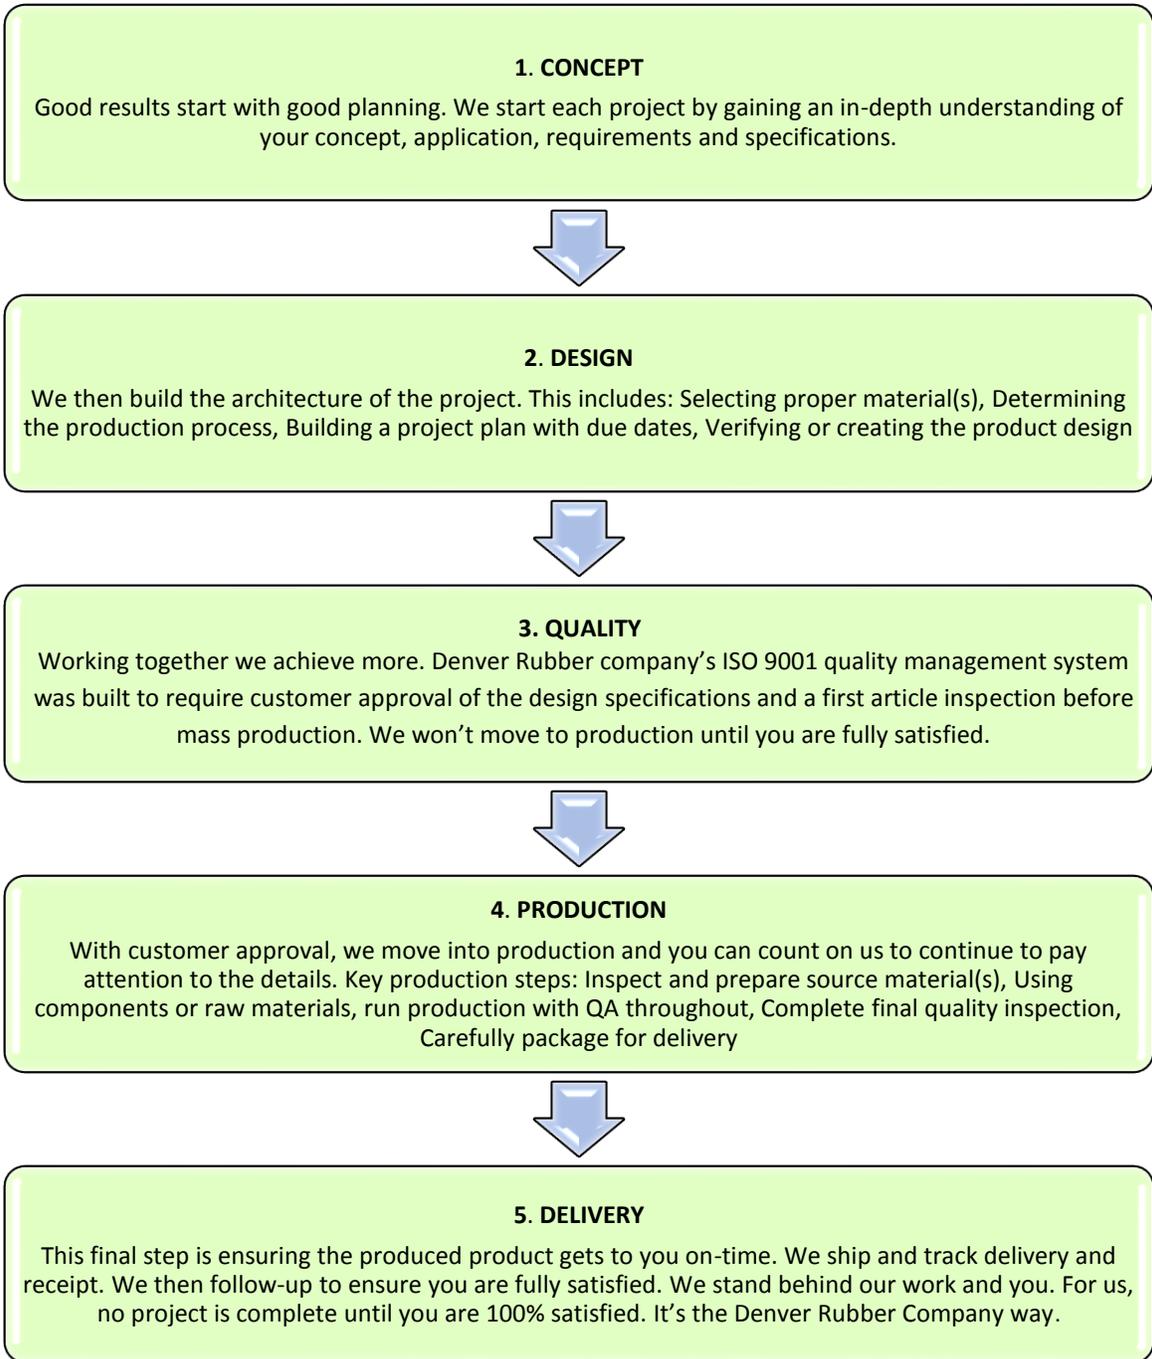

And some of the fittings we offer for custom industrial hose assemblies are fire fittings, hydraulic fittings, vacuum fittings, nozzles, spray guns, clamps, ferrules and hose couplings which could be made from a variety of materials, with selection depending on application. Metals include aluminum, brass, zinc plated steel, zinc plated iron, stainless steel and plain steel.

DRC utilizes high technology to produce and test special hoses such as automatic hose cutter, automatic crimper, automatic Teflon tape machine, and automatic decoiler. [\(Learn More\)](#)

# DRC'S DISCIPLINED MANUFACTURING PROCESS

ISO 9001:2015 certified, we use a disciplined process that gives customers confidence that we'll get the job done right and on time.
